Explore a new vision with us
Our members know a good thing when they see it

It’s a big, bold, beautiful world out there. So much to try, so much to experience, so much to see. And nothing should get in the way. EyeMed is America’s fastest growing vision benefits company¹ because we give members an experience they’ve never seen before.

Healthcare costs are rising. Needs are shifting. People have more to do and less time to do it. EyeMed is changing the industry by doing more to help solve these real-world, everyday challenges.

We’ve grown to over 55 million members, but we build vision benefits one member, one challenge, one solution at a time. With EyeMed, more employees enroll, more use their benefits and more visit in-network providers.² With EyeMed, we want members to get more from their vision benefits. And more from life.

¹ Internal analysis of EyeMed membership data (based on domestic membership, excluding discount lives) compared to data from leading vision benefit companies, as reported in publicly available information, 2018. ² EyeMed analysis of a random sampling of new business accounts that transferred over from a prior benefits company, with comparisons of prior utilization to utilization following transition, 2017.
The vision network employees want

With EyeMed, it’s easy for employees to use their benefits where they want, when they want. Our network offers plenty of provider options, the convenience of evening and weekend hours and easy access to advanced exam and fit technologies. So, your employees can find the perfect provider on their terms, not ours.

“.

The reason we chose EyeMed was because of the network. We have employees in every state, so it was important to make sure everyone had easy access.

Rethinking the vision network

Today’s members expect more. That’s why we’re always finding new ways to bring them convenience, speed and stylish brand names. We believe our solutions are not only changing expectations – they’re changing how benefits work.

ONLINE BENEFITS

In-network also means online

Internet shopping isn’t just for clothes and gadgets anymore—it’s for eyewear, too. In fact, 67% of millennials prefer to shop online rather than in-store. Your employees have several ways to shop for eyewear directly from their smartphone, tablet or computer. And it’s all in-network, which means members can instantly apply their vision benefits at checkout.

CONVENIENT ONLINE SHOPPING OFFERS:

- Wide selection of top-selling name-brands
- Lenses and contacts available for just about any prescription
- User-friendly experience shows members exactly what their benefits pay for
- Free shipping and returns
- Easy prescription verification – just snap and send a picture

The ease and convenience of being able to go online and have eyewear shipped anywhere really helps support our employees’ busy travel demands.

“THE POP-UP CLINIC

Bringing eye care and eyewear to you

Convenience is what our Pop-Up Clinic is all about; it’s a fully-equipped vision clinic right in your own facility*. No need for employees to leave the office. No extra commutes. No hassle finding a time that fits everyone’s schedule. You supply the space. We’ll take care of the rest.

EMPLOYEES CAN:

- Receive an eye exam. More than a basic screening; this is a 15-20 minute comprehensive exam by a local optometrist. The exam can help identify even the slightest vision issue or early sign of some serious health conditions.
- Shop the latest styles. Employees can choose from hundreds of brand name frames, sunglasses and contacts – including top designer brands – then easily apply their benefits and discounts at checkout.

The pop-up clinic was helpful, convenient and easy to schedule. 100% of employees said it enhanced their satisfaction with their benefits package.

Vision benefits that redefine expectations

Employees expect to get value from their vision benefits. Good thing, because our solutions deliver plenty of it. We help control costs without imposing limits—because true value comes from freedom, not frustration. Welcome to a wide open world of savings and selection.

One of the great things about EyeMed is that the vision benefits come with unmatched choice. Our employees can get designer frames, and we believe they can do it for less money.

There’s no room for “one-size-fits-all”

We can easily tailor our benefits to fit your unique employees and your overall benefits and wellness strategy.

Not sure what your ideal vision solution looks like? No problem. We have data on how millions of members use their benefits—members of all kinds, in all industries, in all corners of the country. Based on this insight, we’ll make sure your benefits package includes the things your employees actually need and want.

We thought EyeMed offered a stronger benefit. Compared to what we saw from other groups, EyeMed’s benefit frequency, along with allowances and copays, were richer—and all for a similar premium.
