Your vision and the rundown on 'digital detox'

It may not involve food or drink, but the latest detoxification trend sweeping the globe does involve something most of us consume in excess – and it hits us square in the eyes.

It's called digital detox, and some may think of it as the ultimate luxury. More people, seeking to reclaim a life balance, are taking a break from digital devices for reasons that range from distraction-free family time to improved eye health.

What to bring to the eye doctor – a checklist of 10 must-haves

Before arriving at your eye doctor appointment, don't discount the value of what's in your hands.¹

In fact, people are four times more likely to get an eye exam than a physical!¹ When the time comes for you to go for that eye exam, you should apply the same rule as

Put Vision Safety to Work

No matter what you do, protecting your eyes is an important part of your job.

No matter where you work—in a factory, laboratory, construction site or office—workplace eye injuries can and do occur. Every day, more than 2,000 American workers suffer an eye injury that requires medical attention.¹ And nearly a million Americans have lost some of their sight due to an eye injury.² According to the Bureau of Labor Statistics, these injuries account for more than \$300 million in lost time, medical expenses and worker compensation.³ The good news is that most workplace eye injuries are preventable. But different types of jobs call for different ways to protect your eyes. It's important to know what works best for your occupation.

It's estimated 90 percent of workplace injuries could be avoided with the proper use of safety eyewear.

When dust gets in your eyes – a to-do list for workplace vision safety

We've heard of taking the red-eye home from a business trip. But for roughly 2,000 people every day, red-eye can be a regular work floor occurrence.

That's roughly the number of U.S. workers who sustain daily job-related eye injuries that require medical attention, according to the National Institute for Occupational Safety and Health.¹ The causes of these injuries can range from flying wood chips to infections, or be as typical as dust. If you've ever had so much as an eyelash in

REST FOR THE WEARY

20-20-20 Vision Challenge

Give your tired eyes a regular break from screen time with this easy challenge. It literally takes seconds to do.

20 MINUTES
20 FEET
20 SECONDS

WHY	WHERE	HOW
To keep your eyes strong, vision experts suggest looking up from your computer every 20 minutes at something 20 feet away for 20 seconds. 20-20-20. Simple, right?	"Monitor" your screen starting by taping this tracking sheet to the side of your computer monitor—it makes a great reminder, too.	Every time you do a 20-20-20 move, just mark the sheet. When it's full, start another one. How many can you collect?

Every day, 2,000 American workers suffer an eye injury—and most of them are preventable.¹ When hazards are part of the job, it helps to know how to best protect your eyes.

Flying wood chips, infections, dust and moving objects all pose a risk to eyes at work. Explore 10 ways to keep yours safe, including what to wear and how vision benefits can help.

Low maintenance, easy to do, and motivating—everything you'd want in a workplace vision challenge. One simple concept helps you build long-term healthy vision habits at your own pace.

Men, vision health, and the big 5

Of the most common health issues faced by men, 5 can carry risk of serious harm

This resource card features a purple header with navigation links, a title, a photograph of a man and a young girl, and a purple shield icon with a white cross.

In living color

Most people who are considered blind have a color vision deficiency means they can see colors, but see them a little differently. Colors look faded or dull, or two different colors could look very similar. This happens because the cones in the eye have one or more of the light-sensitive pigments. Genetics are typical blame, but sometimes age, disease, or medication can be the culprit.

This resource card features a photograph of a man looking at a laptop, a green text box with the title and description, and a purple icon with a white 'E' and a checkmark.

This resource card features a collage of three images: a child and a man, a woman in a purple hoodie, and a woman with glasses. It includes a purple icon with a white 'E' and a calendar icon with the number 30.

Five of the most common health issues men face could impact your vision, too. Learn how eyesight can be damaged by these diseases and what you can do to avoid them.

Men are 5 times more likely than women to have the most common form of color blindness. Take a quick screening test and see what color deficiency looks like.³

Put an eye exam back on the to-do list. It might spot early signs of serious health problems. Here's a little extra nudge to make an appointment.

Eye safety checklist

For sports of all sorts

Athletes in all sports, on all levels, of all ages depend on their eyesight to perform. But you never know which way that crazy ball is gonna bounce. Knowing how to protect your eyes can help you enjoy the game—and the vision—you love so much.

	CAUTION	PROTECTION	SKILL BUILDING DRILLS
Baseball	Wild pitches, thrown bats, pop flies	Face guard, eye guard	Tape words to a bouncing ball and see if you can read them (dynamic acuity).
Basketball	Elbows, fingers, basketballs	Eye guards	Watch TV with your head turned to one side (peripheral vision).
Football	Fingers, loose equipment	Eye guards, face guard	Play a kid's memory matching game and focus on improving your speed

Nearly every sport has one thing in common—to play it well, you need to see well. But each sport uses different types of vision. Discover the differences and what they can add to your game.

Eye protection. Fashion statement. Coolness badge. Our shades are a central part of our lives. But where did they come from? Take a closer look at the evolution of sunglasses.

Athletes of all ages are focusing on safety these days. Eye safety should be part of the picture. Next time you hit the field or gym, make sure you check these boxes.
